

REMARKS

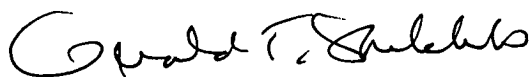

In the above-identified Office Action the Examiner has restricted the application into eleven groups of claims. Applicant hereby elects Group II claims 34 and 36 for prosecutions on their merits. Applicant reserves the right to file divisional applications on the remaining groups of claims.

In addition, Applicant has amended Claim 34 so that it reads that the tilting angle has an accuracy of less than 3 arcseconds. Applicant notes the double quote marks is scientific notation for arcseconds, and thus no new matter has been added.

Applicant further notes that the Examiner has stated that Claim 31 and 33 will be examined along with Group II and thus Applicant considers that the claims elected are in effect claims 31, 33, 34 and 36.
